

Repository & Code Rules

1. Repository name **must start with:** `Enigma_TeamName`.
 2. All team members should add **csisiesgst** as a collaborator.
 3. Repository should be created **only after 9:00 AM** (hackathon start).
 4. **No pre-developed websites/projects** are allowed — only fresh code during the hackathon.
 5. All commits must be pushed to GitHub before submission time.
 6. README should include:
 - Team Name & Members
 - Problem Statement
 - Tech Stack used
 - Setup Instructions
-

Development Rules

7. Only **open-source libraries and frameworks** are allowed (no paid templates/plugins).
8. AI-generated code/tools (like ChatGPT, Copilot) are allowed **only if acknowledged** in the README.
9. Plagiarism from GitHub/other hackathons is strictly prohibited.
10. UI assets (icons, images) must be free-to-use or licensed properly (e.g., Unsplash, Freepik).
